We provide a safe space for young people to recover and restore their Mental and Emotional Health and Wellbeing by means of Counselling, Art Therapy and Mental Health services; helping them develop healthy coping mechanisms, build resilience, and instil a hope for the future.

**My mother died suddenly in 2020 and had a history of drug misuse.**

Me and my baby sister were taken away from our home and now live with my grandparents and my auntie, she is so cool. More like a sister than an aunty as she is only 16.

Mummy always worked hard. We always had nice stuff. She was the best when we lived at home with her.

We used to visit my other grandad and gran, but he died too. He was my best friend. Think he died because his heart was sore after mummy died.

I seen my Daddy sometimes, but he is busy with his new family. When we visit it is very busy and nowhere for me and my sister to sleep properly or even play. We always get in trouble for making too much noise.

My son has felt safe and secure at the sessions and has enjoyed them and the support he has received. Thank you so much for all the help and support that has been given by the Counsellor and all at the Miracle Foundation. I am so grateful to have found this wonderful organisation at a time when I felt I wasn't able to get support through the 'regular' channels of CAMHS etc.

**PARENT TESTIMONIAL**

I wasn't sleeping when my dad first died but after a few sessions of being here I could sleep better. I learned ways of coping when I get angry. My Counsellor always listened to me, and I enjoyed the art.

I would highly recommend your service to other schools and organisations working with young people.”
